The screenshot displays the Jacksonville Apartment Locator website interface. At the top, the logo and tagline "The fastest way to find your Jacksonville apartment." are visible. Below the navigation bar, a sidebar on the left contains various search filters: "Price your rent by" (with radio buttons for "The Apartment" and "The Room"), "Rent Per Month" (a slider ranging from 574 to 1857), "Number of Bedrooms" (a slider from 1 to 4), and a list of other filters including Neighborhood, Distance from my location, Lease Length, Pet Policy, Parking, Public Transportation, Community Features, Sports & Fitness, Green Efforts, Apartment Features, Appliances, Cable & Utilities, Furnishing, and Student Housing Options. A search bar is located at the bottom of the sidebar. The main content area features a map of Jacksonville with a red pin indicating the search location. Below the map, it says "Showing results 1-25 of 53" and "Back | Next >". The results are displayed in a grid of three rows and five columns, each showing a thumbnail image of an apartment community and its name: Arbor Lofts, University Club, Uptown Village at Townsend, Lakewood Villas, and Lakewood Villas. At the bottom of the page, there is a "Share" button and a copyright notice: "© Copyright Traffic2Revenue, Inc. All Rights Reserved. Web Design by 352 Media Group".

URNS TRAFFIC TO LEASES

The traffic that our search page generates is more likely to fit your target demographic. When they reach your leasing office, they are more likely to "look and lease" instead of "look and keep looking."
